

# Harness the Power of Microlearning with **Dynamic Health**

Staying current with evidence-based best practices is easier than ever with Dynamic Health. Nursing best practices are constantly changing, and Dynamic Health provides you with access to world-class clinical resources at the point of care.

## Decrease learning barriers, increase access

Microlearning suggests that breaking down new information into smaller, more frequent sessions supports knowledge retention, increases the rate of skill-building, and helps reduce cognitive load.

## Earn CE credits anytime, anywhere

Dynamic Health enables learning and practice to be combined at your fingertips; earn CE credits while searching for clinical answers or learning new skills at the point of care.

## With you wherever you go

By earning credits at the point of care you can optimize your time in the direct patient environment and enhance your professional growth.

On the go

At the bedside

Integrated into your workflow
