

What do your symptoms mean?

Isabel Symptom Checker can help you find out. Simply enter your symptoms and *Isabel Symptom Checker* will provide a prioritized list of common and rare diagnoses that match your symptoms. You can even access in-depth information on a diagnosis to learn more.

The screenshot shows the Isabel Symptom Checker website. At the top left is the Isabel logo with the tagline "the symptom checker". Below it is a navigation bar with "START HERE" in a red button and links for "Help", "Home", "Administration Menu", and "Logout". The main content area is divided into two columns. The left column is titled "Get possible diagnoses to match your symptoms ..." and contains a form with fields for "age*" (dropdown menu set to "older child (6-12 years)"), "gender*" (radio buttons for "female" and "male", with "male" selected), "region:*" (dropdown menu set to "America North"), and "Enter symptoms :". The symptoms list includes "rash" and "fever" with remove icons, and a "+ add symptom" button. A "search" button is at the bottom. The right column is titled "Get more information on a diagnosis ..." and contains a form with "age*" (dropdown menu set to "--select age group--") and "Enter diagnosis name :". A "search" button is at the bottom. Below the forms is a "Notice Board" section with a title and three items: "✓ New - Get help on deciding where to go next", "✓ How to Guide", and "✓ General Advice". At the bottom of the page is a footer with the text "©Isabel Healthcare 2015 | privacy policy | terms & conditions | contact".

Physicians around the world have been using *Isabel's* professional diagnosis decision support tool for over 15 years. Now, patients and caregivers can use a similar resource to take a more active role in their healthcare.

Isabel Symptom Checker is fast and easy. Enter your symptoms and get a list of diagnoses that match your symptoms.
